Work Experiences

Webwizarts | **ReactJS, TypeScript, TailwindCSS, Figma**
Front-End Developer | January 2023 - September 2023
Remote

VideoVoyage – Interactive Video Solution
- Interactive Video Solution for businesses to better communicate with consumers.
- Developed front-end using ReactJS, TypeScript, TailwindCSS, Redux, React player, React Draggable etc.

TLDR; – Article Reading App
- Reading app that uses AI to summarize a news or article to let users read main theme.
- Developed UX Design using Figma.

Oqtave Web Solutions | GulpJS, JavaScript, HTML5, Bootstrap, SCSS, CSS3
Front-End Developer | August 2020 - December 2020
Remote

MarthaMax – Business website for a Startup
- A contemporary one-page scrolling website designed to appeal both potential partners and consumers, optimizing user engagement.
- Implemented GulpJS in the build process to streamline the loading time of extensive photos, media, and custom fonts. Additionally, incorporated a loading screen to enhance the overall user experience.

Clickfunnel Templates –
Advertisement templates for Webinars
- Building advertisement pages for webinars using HTML5 and Bootstrap library.

Featured Project

[**The Shoppies**](#) –
Shopify 2021 Intern Challenge
- Implemented a single component capable of rendering two distinct sets of data: a list of nominatable movies and another list of denotable movies. Utilized additional props to distinguish between the two types of data.
- My other personal projects [link.](#)
